
Delay & Quantum Experts

Damian James
Delay & Quantum Experts

About Us.

Damian James provide dedicated expert witness and dispute resolution services in construction and engineering.

Our team of experienced experts have a track record of proven support to clients and legal teams around the world.

Allow us to bridge the gap between technical, legal and financial expertise. We will help you understand and navigate the complex world of construction disputes. Our aim is to help you minimise risk and resolve complex problems.

The team operate across South Africa, the UK and United Arab Emirates. Damian James are uniquely placed to support you and your clients in the fields of dispute resolution, quantum expertise and the analysis of delay.

What we do.

Our experts are experienced across sectors, including rail, energy, commercial and infrastructure.

We are familiar with formal legal proceedings and alternative dispute resolution (ADR). As a result, we can support you through the process of avoiding and managing complex disputes.

Our analytical expertise covers the following core areas:

- Commercial and contractual advice and analysis.
- Planning and scheduling.
- Project management and technical issues.

Clarity & Expertise.

Obtain a clearer understanding of your project risks and opportunities. Ensure disputes are accurately resolved by making the most of our expertise.

A collective of construction professionals, often dual qualified in law, our experts have worked on projects all over the world. Construction contract expertise includes most of the major standard forms.

You may need support in the preparation, defence, or negotiation of claims. You may be looking for objective expert advice on delay and quantum matters.

Whatever your specific need, the team at Damian James can support you.

Our experienced expert witnesses are available to assist with disputes arising over quantum, delay, and technical issues. The team also includes experienced adjudicators, arbitrators, and mediators.

The Team.

Damian James: Director

Damian is a leading expert in the area of quantum, delay, disruption and cost evaluation. He has been appointed as advocate in arbitrations and as expert in adjudications. He is widely experienced in engineering and construction claims and dispute resolution. Damian has particular expertise in the preparation of detailed claims to recover client entitlements.

Damian is skilled in the complex discipline of delay analysis and disruption valuation. He is able to disentangle global claims to establish the relationship of particular cause and effect. Damian is particularly adept in matters of dominance and concurrency.
